## HOMES & GARDENS COLLECTION

This new collection is the result of an exciting collaboration between two classic English brands – *Homes & Gardens* and GP&J Baker, the company that owns Baker Lifestyle. GP&J Baker was launched in 1884, and *Homes & Gardens* was first published in 1919. As a key ingredient in quintessential English decoration, the company's fabrics have, over the decades, regularly featured in our pages.

The collection embodies the spirit of *Homes & Gardens* – classically English but with a fresh, modern feel. So all the staples of English style are here; in addition to large-scale florals and toile de jouys, there are crisp gingham, simple motifs and graphic patterns, all of which help to add a modern twist.

Texture is also key, with cotton, denims and linen mixes, perfect for creating schemes that look as good as they feel.
